And The End, pt. 5

The Final Call

Rev 14:6-7 - And I saw another angel fly in the midst of heaven, having the everlasting gospel to preach unto them that dwell on the earth, and to every nation, and kindred, and tongue, and people, 7 Saying with a loud voice, Fear God, and give glory to him; for the hour of his judgment is come: and worship him that made heaven, and earth, and the sea, and the fountains of waters.

Education and the 3 Angels

God has revealed to me that we are in positive danger of bringing into our educational work the customs and fashions that prevail in the schools of the world. If the teachers are not guarded in their work, they will place on the necks of their students worldly yokes instead of the yoke of Christ.

Education and the 3 Angels

The plan of the schools we shall establish in these closing days of the work is to be of an entirely different order from those we have instituted in the past. { RH February 6, 1908, Art. B, par. 5 }

Education and the 3 Angels

I have been shown that in our educational work we are not to follow the methods that have been adopted in our older established schools. There is among us too much clinging to old customs, and because of this we are far behind where we should be in the development of the third angel's message.

Education and the 3 Angels

Because men could not comprehend the purpose of God in the plans laid before us for the education of the workers, methods have been followed in some of our schools which have retarded rather than advanced the work of God. Years have passed into eternity with small results that might have shown the accomplishment of a great and sacred work.

Education and the 3 Angels

If the Lord's will had been done by the workers in earth as the angels do it in heaven, much that now remains to be done, would be already accomplished, and noble results would be seen to follow our missionary efforts. { RH February 6, 1908, Art. B, par. 8 }

Education and the 3 Angels

The usefulness learned on the school farm is the very education that is most essential for those who go out as missionaries to many foreign fields. If this training is given with the glory of God in view, great results will be seen. No work will be more effectual than that done by those who, having obtained an education in practical life, go forth to mission fields with the message of truth,

Education and the 3 Angels

prepared to instruct as they have been instructed. The knowledge they have obtained in the tilling of the soil, in the erection of buildings, and in other lines of manual work, and which they carry with them to their field of labor, will make them a blessing even in heathen lands. { RH February 6, 1908, Art. B, par. 9 }

Education and the 3 Angels

Before we can carry the message of present truth in all its fulness to other countries we must first break every yoke. We must come into the line of true education, walking in the wisdom of God, and not in the wisdom of the world. God calls for messengers who will be true reformers.

Education and the 3 Angels

We must educate, educate, to prepare a people who will understand the message, and then give the message to the world. { RH February 6, 1908, Art. B, par. 10 }

Time to Break the Yoke

There are those who are not adapted to agricultural work. These should not devise and plan in our conferences, for they will hold everything from advancing in these lines. This has held our people from advancing in the past. If the land is cultivated, it will with the blessing of God, supply our necessities.—{ 8MR 201.1 }

Time to Break the Yoke

Isa 58:6 - Is not this the fast that I have chosen? to loose the bands of wickedness, to undo the heavy burdens, and to let the oppressed go free, and that ye break every yoke?

Time to Break the Yoke

Even from the viewpoint of financial results, the outlay required for manual training would prove the truest economy. Multitudes of our boys would thus be kept from the street corner and the groggery; the expenditure for gardens, workshops, and baths would be more than met by the saving on hospitals and reformatories.

Time to Break the Yoke

And the youth themselves, trained to habits of industry, and skilled in lines of useful and productive labor—who can estimate their value to society and to the nation? { Ed 218.4}

Time to Break the Yoke

When those who have reached the years of youth and manhood see no difference between our schools and the colleges of the world, and have no preference as to which they attend, though error is taught by precept and example in the schools of the world, then there is need of closely examining the reasons that lead to such a conclusion.

Time to Break the Yoke

Our institutions of learning may swing into worldly conformity. Step by step they may advance to the world; but they are prisoners of hope, and God will correct and enlighten them, and bring them back to their upright position of distinction from the world. {FE 290}

Conclusion
