

Strawberries
Matted Row
Minnesota

First fruit of
Spring!

Most Minn
Growers
Use
Matted
Row
system

Without
Snow cover
SB Plants will
freeze out

3 times a
Winter @
20 below zero

Ground frozen to
2-3 ft down

Waiting for the
spring miracle!

We will plant this
ground in mid April.

First job of spring- Early April-raking straw off the plants

Planting! Mid April

Single row
planter.
Laying drip
irrigation lines 4”
below each
plant.
4’ row centers
18” between
plants

Digging our pond-in
exchange for gravel deposits

Our pond with a 2hp electric pump

Create a spiritual atmosphere

Psalm 96:11,12

Let the heavens rejoice, and let
the earth be glad; let the sea roar,
and the fulness thereof.

Let the field be joyful,
and all that is therein!

Isaiah 55:10,11

For as the rain comes
down...

**So shall My word be that
goes forth from My mouth;
It shall not return to Me
void...**

Genesis 8:22

While the earth remains,
Seedtime and harvest,
Cold and heat,
Winter and summer, and
Day and night,
Shall not cease.

Mowed off field
Beginning of Renovation

Till rows down to 20" width

Till up
berries
after 3
years of
picking.

Then
cover
crop.

Prepare straw for covering- August

Mow off and till in the
cover crop-mid September

Cover the field-early November
350 bales per acre
